Deleuze and the History of Mathematics St Antoninus of Florence on Trade, Merchants, and Workers Comparative Causal Mapping Core Curriculum for Oncology Nursing E-Book Lucrezio e il criterio di verità epicureo Business Information Systems Workshops Trade Policy Review Pharmacotherapy Principles and Practice, Seventh Edition *Simon Duffy Jason Aaron Brown Mr Mingde Wang Oncology Nursing Society Chiara Rover Witold Abramowicz Marie A. Chisholm-Burns*

gilles deleuze s engagements with mathematics replete in his work rely upon the construction of alternative lineages in the history of mathematics which challenge some of the self imposed limits that regulate the canonical concepts of the discipline for deleuze these challenges are an opportunity to reconfigure particular philosophical problems for example the problem of individuation and to develop new concepts in response to them the highly original research presented in this book explores the mathematical construction of deleuze s philosophy as well as addressing the undervalued and often neglected question of the mathematical thinkers who influenced his work in the wake of alain badiou s recent and seemingly devastating attack on the way the relation between mathematics and philosophy is configured in deleuze s work simon duffy offers a robust defence of the structure of deleuze s philosophy and in particular the adequacy of the mathematical problems used in its construction by reconciling badiou and deleuze s seeming incompatible engagements with mathematics duffy succeeds in presenting a solid foundation for deleuze s philosophy rebuffing the recent challenges against it

saint antoninus of florence was a dominican friar and archbishop of florence from 1446 to 1459 he composed one of the most comprehensive manuals of moral theology the summa which has long been counted among the more copious influential and rewarding medieval sources st antoninus

of florence on trade merchants and workers gives an orientation to the life and teaching of saint antoninus focusing on his writings on economic ethics and includes a critical edition of his original latin text with an english translation the book provides an extensive introduction to his thought situating it in its intellectual and social context and elucidates the development of medieval economic and moral doctrines in law and theology jason aaron brown examines historians arguments about italian business culture in the wake of the medieval commercial revolution and whether this culture can be considered capitalistic he concludes that while saint antoninus is surprisingly modern in the economic concepts he deploys his moral teaching on proper means and ends in the marketplace stood against certain nascent capitalistic tendencies in fifteenth century florence through examination of the manuscripts this book opens a window into a premodern author s writing process that will be of interest to scholars of medieval manuscripts and literary production

comparative causal mapping the cmap3 method by mauri laukkanen and mingde wang is an introduction to the conceptual backgrounds of causal cognitive mapping and to the typical methods in comparative and composite causal mapping based on either interview or questionnaire primary data or on secondary documentary data the discussed ccm research is supported by cmap3 a freely downloadable uef fi cmap3 windows software platform for ccm studies the book has three parts the first discusses the theoretical underpinnings and methodological issues in causal mapping including the target phenomena and different interpretations of causal maps mapping the motives for using ccm methods and the criteria of method selection the second part focuses on the technical aspects of using cmap3 in typical ccm research the third part presents three ccm study cases a classical document based study a semi structured interview based sim study and a methodological study comparing sim with an electronically administered structured hybrid ccm approach in addition to demonstrating ccm practices they suggest that different methods produce divergent results and are thus not substitutable the research task should determine which ccm approach is appropriate the book will appeal to both academic and professional audiences in particular to doctoral students and experienced researchers looking for new topics and method approaches but also to practitioners in fields such as management and organization studies organizational development public policy and education and knowledge management

was lucretius a fundamentalist epicurean and a mere repeater of his master's words or did he emerge as an innovative philosopher in his own right the relationship between lucretius and epicurus remains a complex and unresolved issue in epicurean scholarship to what extent was lucretius aware of intellectual debates following epicurus and how did he contribute to them the volume examines these questions through an epistemological lens focusing on the canonic the science of the criterion epicurus who died around 271–270 bc did not fully witness firsthand the impact of his doctrines on hellenistic epistemology nor could he defend them against subsequent criticisms tasks left to his successors by systematically examining the doctrine of the criterion of truth in *de rerum natura* this study shows how lucretius actively engaged in the defence and evolution of early epicureanism despite his fidelity to epicurus the poet displayed a remarkable philosophical ability to independently rethink and rework materials from both within the epicurean tradition and beyond thereby reiterating on a broader scale the non monolithic nature of the *kepos* it appeals to scholars interested in hellenistic and roman philosophy alike
